Subject: Wood River Road Dillingham

It is spring 2007, and I am disheartened to hear that the Wood River Road Project in Dillingham may be put off until 2009. We have been put off again and again, and now this road which is in deplorable condition, is washing out. Each year the road becomes increasingly dangerous and increasingly more expensive to improve. We are again experiencing water running from the tundra over the road, our vehicles are bathed in mud, and it is so riddled with holes that driving is two miles of bone jarring experience. Please do not delay this project at any level. It is urgent for residents of Wood River Road.
